[Question 1]

Annex A

Dear Administrator,

I have just received these instructions from Steph Bundle, who wants us to file a PCT application claiming priority to the existing UK first filing.

I now have to dash off for Oral Proceedings in Munich tomorrow. Meanwhile, please get the PCT request ready in the EPO online filing software, for me to sign when I get back this Thursday, the 19th (the end of the priority year).

The single file written specification is in

[\\Server\wao\readytofile\poss-05-WO-spec.pdf](#) [15 pages description, 3 pages with 22 claims, 1 page abstract]

and the drawings are in

[\\Server\wao\readytofile\poss-05-WO-dwgs.pdf](#) [5 sheets with 7 figures – the drawing which best illustrates the invention is Fig. 2.]

There is a pre-conversion archive in the same folder, called PCA.zip, and a copy general power of attorney for the applicant, PoA.pdf, ref. poss-01-WO.

Our case reference for the new filing is poss-05-WO.

The inventor is David Hyneken, who is employed by the client and prefers us to use the company address for his patent applications. David and Steph are both British.

Please take care of getting the priority document from the RO to the IB. Please also do a Declaration of the applicant's entitlement to grant. We will not bother with a Declaration as to the identity of the inventor, and will organise the US Declaration of Inventorship once the application has been filed.

Thanks,

-Bill.

Dear Bill,

UK Patent Application No. 1408899.0
“Matter Transfer Module for Bagging Device”
Your ref. poss-05-GB

Thank you for your visit last month, and for the updated patent draft, following on from the above GB filing that you made for our company. David and I have reviewed it, and think that it covers the latest developments to this invention very well. We have no further changes to suggest.

I wish to avail myself of the 18 month breathing space, keeping the options for international protection open using the PCT filing strategy that you recommended.

With best regards,

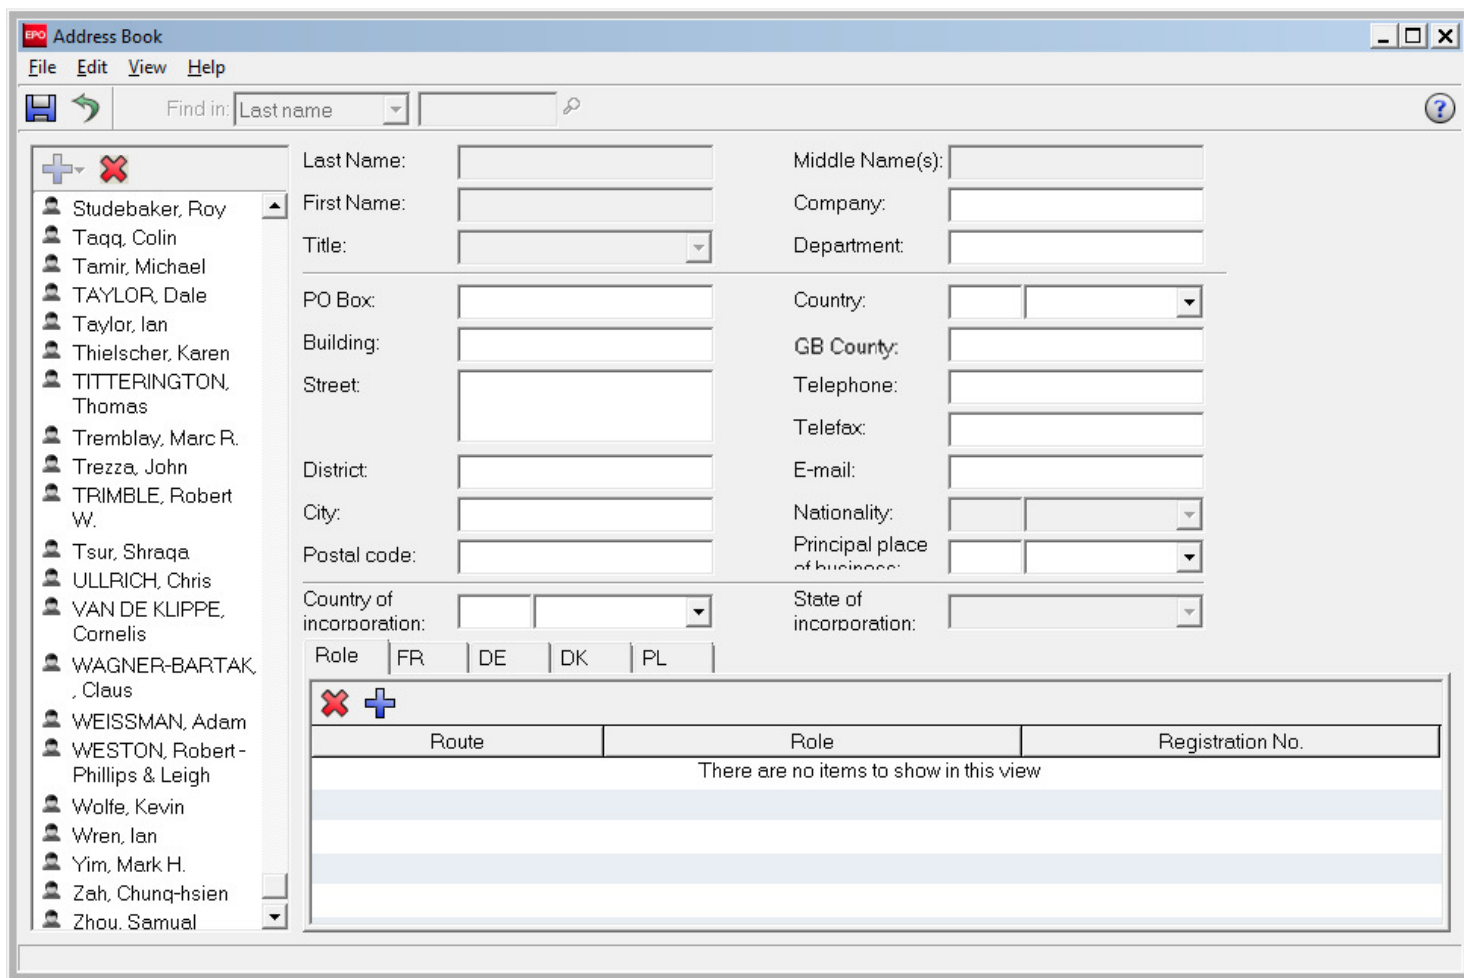

Stephanie
