Great Ormond Street Hospital - a great cause

Childhood and cancer. Two words that should never go together.

But, every week, around five children in the UK lose their lives to cancer. That's five families who are faced with the worst news possible.

A child doesn't have to die from cancer for it to take their life. It can take away their childhood, their opportunities to learn and even to have children of their own one day.

That's why we're building a new, world-leading Children's Cancer Centre at Great Ormond Street Hospital (GOSH). To give more children the chance to lead happy, healthy lives. And to help improve the odds for children with cancer once and for all.

Join us to help build the Children's Cancer Centre at GOSH and save more lives.

**Together we can build it.
Together we can help
beat childhood cancer.**
